Meeting with Rivers CIA Subcommittee of House Armed Services

8:30 a.m. - Wednesday, 27 April 1966

Mr. Chairman, I am happy to meet with you gentlemen again today. If it is agreeable with you, I would like to list the items I plan to discuss today. There have been many references to the Agency in the press recently, and I have also included some items which were suggestions from Mr. Blandford. The topics I plan to cover are:

- a. The McCarthy resolution before the Senate Foreign Relations Committee;
- b. Press reference to CIA employees needing vacations from the Gold Coast;
- c. Certain civilian airline activities in Laos;
- d. OXCART deployment to the Far East;
- e. Missiles in Cuba; and
- f. The current Vietnam picture.

I am also prepared to answer your questions on any other areas of the world. If it is desired, I can give you a little further background on the slander case of Heine v. Raus which is pending in the courts, and, of course, I can discuss with you the Michigan State University matter which has received a lot of attention in the press. If this plan is the will of the Committee, I will proceed.
